AMSLER GRID

Use this Amsler Grid to check your vision every day.

HOW TO USE:

- Wear the eyeglasses you normally wear when reading.
- Position the chart 14 inches away from your face.
- Cover one eye at a time with your hand.
- Stare at the dot in the center. Do not let your eye drift from the center dot.
- Contact your eyecare physician immediately if:
 1. Any of the straight lines appear wavy or bent
 2. Any of the boxes differ in size or shape
 3. Any of the lines are missing, blurry or discolored

Monitoring your vision every day is important. Keep this grid in a convenient place.

IMPORTANT – Report any irregularities to your eye doctor immediately: Mark areas of the chart you're not seeing properly (print two charts if you notice problems in each eye) and bring it with you when you visit your doctor.
